Company expansion

- In 2016, it was decided to expand the production facility together with fishing company, Marisa Fisheries NV.
- OCEAN DELIGHT was established and the official opening took place on 23 June 2019 after which the test production started on August 2019.
- On 14 May 2020, the company received official approval from the local competent authority.

OCEAN DELIGHT SURINAME NV

Fresh fish is produced in a temperature controlled environment.

In the factory the fish is either being packed on ice for fresh export or put in a blastfreezer, after which it is packed in boxes or bags and stored in the freezer warehouse.

Targets >40 species:

Snappers, Weakfish, Kingfish, Silverbelly, Croakers, Grunts, Cavalli, Mackerel, Barracuda, Atlantic Moonfish, Poyo, Bangamary, Catfish etc.

Product type: whole round, whole gutted, descaled, head-on/headless, panready, steak, fillet (skin-on/skin-off)

Production: 18 ton/day

Markets: Local market, Caribbean, Europe, US and Asia

Thank you for your attention

The IICA-COLEACP Caribbean Agrifood Business Series focuses on innovations and successes of Caribbean farmer-led businesses and SMEs. These activities are supported by the Fit For Market SPS programme, implemented by COLEACP within the Framework of Development Cooperation between the Organisation of African, Caribbean and Pacific States (OACPS) and the European Union.

Thank you
