Innovations Session N°9

Successes from women-led agribusinesses in Africa

INNOVATIONS
SERIES

AMAATI CO. LTD

We support vulnerable rural women to grow fonio on community degraded land that have been abandoned.
Currently working with 5,000 smallholder farmers.

We then hire women to process high cleaned fonio for local and international market

We export to USA, Italy, UK, Switzerland and Canada .

DIM Fonio is a Superfood, non-GMO and environmentally friendly product packed with nutrients to boost your health. It nourishes your body with good amount of iron, zinc, potassium, protein and calcium. It contains high fiber that keeps your digestive system healthy.

Your investment in DIM Fonio will contribute in giving the best good life to vulnerable rural women, while nourishing you, to keep your best healthy lifestyle.

Dim Fonio from Amaati can be used for preparing both local and continental dishes like:

Dim Fonio Salad

Dim Fonio Waakye

Dim Fonio Aroni

Dim Fonio Jollof

The PAFO-COLEACP Innovations Series focuses on innovations and successes of African farmer-led businesses and SMEs. These activities are supported by the Fit For Market SPS programme, implemented by COLEACP within the Framework of Development Cooperation between the Organisation of African, Caribbean and Pacific States (OACPS) and the European Union.

Thank you
