## OECD-COLEAD Fruit and Vegetables Industry Series: Feedback Survey

This survey is available in English and French; Go to the menu at the top right to select your language.

In 2021, OECD Fruit and Vegetables Scheme and COLEAD launched the **Fruit and Vegetables Industry Series** to highlight the significance of the sector and to celebrate the United Nations 2021 International Year of Fruits and Vegetables (F&V).

The Series aim to share knowledge of both local and export markets and operators; enhance understanding of the sector's contribution to sustainable production and consumption; promote the contribution of fruit and vegetables to healthy and nutritious diets; and showcase successes and innovations of private sector operators across the EU and Southern countries, as well as lessons learned.

As part of our efforts to monitor the efficiency of our activities and improve our work, we carry out regular surveys with the participants. Having participated in at least one of these sessions, we would like to ask for your feedback about the OECD-COLEAD series. The survey below is very quick to answer.

The survey is anonymous, and the analysis is only for internal purposes to help us to improve these joint activities and to better meet your expectations and needs.

We warmly thank you for your contribution by answering the questions before the 24 February 2025.

The Fruit and Vegetables Industry Series are organised by the Fit For Market Plus programme, implemented by COLEAD within the framework of Development cooperation between the Organisation of African, Caribbean and Pacific States (OACPS), and the European Union (EU).
